The Building Safety Group

Bespoke Health and Safety Services for your business

The Building Safety Group (BSG) is recognised as the UK's leading experts in Health and Safety consultancy for the building and construction sector. We have been operating as a not for profit organisation for over 50 years and have over 750 members located across 3500 workplaces.

BSG membership packages are available for all different types and size of construction or building company. Details of all our packages can be viewed on our website www.bsgltd.co.uk. Some of our members however choose to select a **BSG bespoke**, customised package which has been specially tailored for their business. We offer a full range of services to choose from, so please look through the options available and let us know which BSG services are the best match for you.

Site, office and workshop inspections

BSG's experienced and expert safety advisers will conduct site inspection visits to ensure that your business is competent and compliant. Our highly qualified advisers visit multiple sites throughout the country, completing and submitting over **18,000** site inspection reports per year. We can also carry out health and safety inspections of your regional or satellite offices.

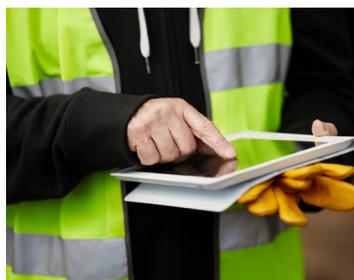

Online access to over 200 Health and Safety documents

By logging into BSG Online, you will gain access to over 200 Health and Safety **policy documents** and **risk management templates**. Many of our members use BSG Online to manage risk more effectively and to help ensure that their organisations remain compliant with regulations.

Site inspection reports

Every site visit we make generates an electronic inspection report which is transmitted to your office, usually within the hour.

The report will highlight any areas of concern or material breaches for your attention.

BSG electronic site inspection reports

Annual health check

Take advantage of our Annual Health Check and we will arrange for one of our safety advisers to meet with you to discuss your company's health and safety matters including a review of your Health and Safety policy, procedures, statistical data, and training records.

Member Helpline

Whether you need urgent help or require general assistance, our dedicated support team is available via the BSG Member helpline.

Accident investigation

We offer an Accident and Investigation reporting service (if other than major accidents). The cost of this service is based on the time involved, so please contact us to discuss your needs and get a quotation.

SSIP accreditations

Our safety advisers can provide their expert advice and guidance with applications such as CHAS.

Role of CDM Coordinator

We are able to assist members who carry out their own development projects by fulfilling the role of **CDM Coordinator** in accordance with Construction (Design & Management) Regulation 2007.

Training

The Building Safety Group is dedicated to delivering the highest quality health and safety training, specifically tailored for the building and construction industry.

A complete range of health and safety courses are run on a regular basis from our head office in Bristol as well as from regional training centres located throughout the UK.

BSG's training courses can be hosted at our head office, regional training centres or on your premises.

Site Safety Folder

Every site should have a copy of the Site Safety Folder. As well as containing statutory documentation which is required to be completed by law, the folder contains model fire plans, induction forms, accident report forms and other important information on Health and Safety matters.

Fire risk assessments

Several of our safety advisers have moved to the Building Safety Group after a career in the Fire Service. This places us in the unique position of being able to offer specialist advice regarding fire prevention and risk assessment.

Health and Safety audits

An audit is designed to give an accurate appraisal of your organisation's current health and safety practices and assess whether you are meeting your legal duties and maintaining acceptable standards.

Latest industry news

BSG Online is our monthly newsletter which offers the latest news in Health and Safety developments which can affect your business.

New information about changes in legislation, Approved Codes of Practice as well as Safe Systems of Guidance is also reported on a regular basis.

Visit www.bsgltd.co.uk to download the latest copy of BSG Online.

Health and Safety law poster

Employers have a legal duty under the Health and Safety Information for Employees Regulations (HSIER) to display the approved poster in a prominent position in each workplace. Contact us to order your Health and Safety Law poster today.

Toolbox Talks

Short and specific training sessions delivered to site based personnel by our safety advisers have proved invaluable to members who wish to deliver a particular message. Contact our Training Team to book a **Toolbox Talk**.

Get in touch...

Please don't hesitate to get in touch if you would like us to put together a service package for you, specifically tailored for your business. We would be delighted to hear from you:

What BSG clients say about us

"With health and safety at the forefront of all that we do our membership of the Building Safety Group is invaluable to us. The service is first class and is delivered by consummate professionals who are totally in tune with our needs and requirements." **Pearce Construction (Barnstaple) Ltd**

"We have been delighted with the level of service provided by BSG. Their professional advice on health and safety helps us to protect our workers from harm, prevent accidents and reduce absenteeism. On the commercial side, this goes a long way to ensuring that we deliver our business projects on time and within budget- which is important for sustaining the long-term profitability of the company." **J. S. Wright**

"BSG provide an invaluable service for McCarthy and Stone. Their in-depth knowledge, expertise and all round professionalism help to ensure that we are compliant with health and safety regulations." **McCarthy and Stone**
